Last year, on October 2010, Israel celebrated 10 years of its rehabilitation in the community law in several events and international workshop.

This year, because of collision with the Jewish New Year Holidays, the Mental Health Week was delayed to November 13-18, 2011, with a central conference on November 15th.

A conference of all 11 centers (in 11 cities), giving support to families, is planned for March 2012.

It may be an opportunity for our European colleagues to learn about this unique enterprise and the rehabilitation system for mentally disabled persons in Israel.
